SELECTMEN'S REPORT

The Selectmen would like to take this opportunity to welcome all our new citizens who are reading this Town Report for the first time.

The Town entered into a ten year trash disposal contract with Sawyer Environmental and P.E.R.C. The cost to be \$17 a ton. Our current contract to pick up the trash with Smith's has one more year.

The winter road contract with M-C-M Construction has one year left. For this next winter season we have proposed an increase of 600 yards of sand and 25 % more salt per yard. This is due to the fact we have run short the last two years. Sand and salt storage will be one of the major problems to deal with in the next two years. The D.E.P. has proposed that all storage facilities must be covered by a building. Also any new stock piles must be under cover. This could be a major cost to the town.

The Federal Revenue Sharing program ended. This means a loss of \$12,000 to the town. This will have to be made up by taxation.

A number of people have expressed an interest to have the town professionally evaluated. The cost is approximately \$19,500 for a total reevaluation. The article is to give you the voters the opportunity to make this decision.

We thank you for giving us the opportunity to serve you and hope to see you all at town meeting.

ROAD COMMISSIONER'S REPORT

Dear Residents,

As most of you have seen we are trying to do the best we can to maintain the roads of our town. But it is a losing battle that we are not going to win without help. As most of you have already seen we have asked for an increase in monies for the summer roads account. Unless you want to ride on rougher roads in years to come I hope you see fit to vote for that article as written.

We intend to resurface paved roads this year as best we can with the money we have. Last year we replaced 23 culverts, resurfaced approximately 7.5 miles of dirt roads and cut brush the entire length of the Lindsey Road.

We are not Road Engineers and don't claim to be. If anybody would like to try their hand at Road Commissioners, we as Selectmen would appreciate their help or advice from any Professionals on this matter.

We would like to remind people it is a State Law that putting any obstruction in a Public Right of Way is illegal, meaning snow, cars, trees, etc. And from now on any car left beside the road during snowstorms will be towed at owner's expense.

Respectfully submitted,
ANDREW WATSON
GALEN HAMILTON

FIRE DEPARTMENT REPORT

The Newburgh Volunteer Fire Department had a quiet and productive year. The Department responded to 8 calls during 1986. The painting and body work on the tanker was completed and we are now up to date on equipment. Our beano profits were over \$4,000.00 in 1986. However, we have been forced to discontinue running beano because of a lack of volunteers. We just cannot expect the same two dozen people to work month after month on a project which benefits a community of twelve hundred people. There have been repeated requests for help in this area in this report over the past several years with no substantial results.

A firemen's ball was not held in 1986, but there are plans to try to hold one in 1987. Some other fund raising projects are also being considered at this time to replace the income from beano, but again it takes people to work on these projects.

It has been suggested within the department that our next project should be the purchase of some sort of utility vehicle which would carry the extra equipment; hats, boots, coats and pumps. It would also provide a place for the firemen to get in under cover and keep warm during the winter months. This will be the goal of some of our future fund raising efforts.

There is one area which several of our volunteers feel needs to be addressed at this time. Almost everyone answers the fire call and attends the fires, however, the work of the Fire Department is not over when the fire is extinguished. Help is needed in mopping up afterwards. The trucks have to be refilled, the hoses loaded and the equipment put away. It is very disheartening to fight a fire for several hours and then have only a few people to help get everything loaded on the trucks and back to the fire house. This is especially true at night fires when everyone disappears as soon as the fire is out, leaving a handful of people to do the cleaning up. It could go twice as fast with a few more hands helping. Remember the fire is not over until the trucks are back in the fire house and the equipment put away.

The Fire Department meets on the first Tuesday of each month at 7:30. It is listed on the community calendar. It is your Fire Department. Come and help make some of the decisions and learn about the equipment. All of the equipment in the world can't fight a fire without volunteers who know how to use it.

If you have any questions about meetings or training sessions, any of the following officers can be contacted.

PLANNING BOARD REPORT

The Newburgh Planning Board held twelve regular and four special meetings during the 1986-87 year. In response to the charge given the Board at the 1986 Town Meeting, we worked on revising the Newburgh Comprehensive Plan. We have contracted with the Penobscot Valley Council of Governments for assistance in this endeavor. Preliminary work has been done to update the various statistical data included in the Plan, and a survey of town residents is being conducted to determine the direction of the goals and recommendations to be incorporated. Work still to be done includes analysis of the survey, completion of statistical summaries, maps, graphs, etc., and writing of the goals and recommendations. The Board would appreciate receiving suggestions from the townspeople on what to include as goals and recommendations. Several discussion items are listed below.

Respectfully submitted,

CEMETERY COMMITTEE REPORT

Another year has passed, we hope everyone was happy, in regard to the care of the cemeteries. It was a very hard summer, as the grass grew so fast, as it was, they were mowed thirteen times.

The Committee spent several hours in the Chapman Cemetery to get the information needed for the new map, which Roger Luce is now working on. Also we started to do some work in the Hill Cemetery, toward getting a map of the 50 ft. addition. We try to do our best, with what money we have to work with. We doubt if a lot of people realize how much time is spent working with people, answering questions, traveling to cemeteries to measure lots, showing relatives where someone is buried, etc. This is volunteer work.

AUDITOR'S REPORT

March 20, 1986

Board of Selectmen
Town of Newburgh
Newburgh, Me. 04444

Gentlemen,

I have examined the financial statements of the town of Newburgh for the year ended February 15, 1986. My examination was made in accordance with generally accepted auditing standards and included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In my opinion the financial statements listed in this report present fairly the financial position of the town.

Very truly yours,
C. A. HAMILTON, Auditor
